SKILLS

- Problem Solving
- Team Coordination
- Public Speaking
- Marketing & Presentation
- Machine Learning
- Competitive Programming
- Programming: Python, Java, C, C++, SQL, JavaScript

CERTIFICATIONS

- AWS Cloud Practitioner Essentials
- CompTIA A+ 220-1102
- Forage - Job Simulation
- CS50's Introduction to Computer Science

LANGUAGES

- English (Fluent)
- Tamil

PROFILE

Innovative and results-driven problem solver with strong technical expertise in machine learning, cybersecurity, and software development. Experienced in hackathons, teamwork, and rapid coding under tight deadlines. Skilled in team coordination, public speaking, and marketing innovative solutions to complex problems. Seeking to leverage my technical background and marketing insights in a dynamic environment.

EXPERIENCE AND PROJECTS

Hack Hustle

Team Leader at Hackathon

- Led a cross-functional team to develop a machine learning solution that optimizes bus scheduling and routing, aimed at reducing road traffic.
- Presented the solution to a panel of judges, demonstrating strong public speaking and problem-solving skills.

TRAFFIC MEN

A project to map a new way!

- Developed an innovative mapping solution that dynamically adjusts routes based on real-time traffic and accident data.
- Incorporated machine learning algorithms to predict traffic patterns, enhancing route accuracy and travel efficiency.

PORTFOLIO

Personal Website

- Implemented modern web technologies such as HTML5, CSS3, and JavaScript to create an interactive and visually appealing portfolio.
- Highlighted key skills in machine learning, system security, and dynamic web development.

EDUCATION

B.Tech Machine Learning

Saveetha Engineering College

2023 - 2027
